

Tzivi Santiago Gelstein

React developer.

About me

Over the course of 2 years I have worked on different personal projects such as web applications, mobile applications and web designs, in order to practice the skills learned during my learning.

Experience and skills

I am a self-taught web development student focused on the MERN stack. I adapt easily to collaborative environments; I like to learn new things and work in high-performance teams. I want to continue growing professionally to give the best of me every working day.

Technologies I work with...

ReactJS NodeJS GIT CSS

NextJS MongoDB JavaScript

Languages

Spanish - Native

English - Limited Working Proficiency

Studies

Technical secondary 2016 - 2021
